Based in West Berkshire, M + M Medical Services is able to deploy vehicles and staff from First Aiders to State Registered Paramedics and nurses, in order to provide cover at Small and Large Events throughout the South and surrounding areas.

We can provide a wide range of staff and equipment including front-line emergency ambulances, response vehicles, cycle response and static first aid treatment units.

**The following quote is taken from The Event Safety Guide (HMSO) Par 717, p123:**

*"Event organisers must appoint a competent organisation to provide medical management. The appointed organisation should be experienced in the medical management of similar events."*

The staff at M + M Medical Services have over 50 years of experience within the NHS and private sectors, providing all aspects of first aid and medical services to events across the South of England.

Our staff have a minimum of First Aid at Work, AED and medical gases, although many hold additional qualifications or experience. Many are professionally qualified and experts in their fields of practice. These include a number of State Registered Paramedics, IHCD Ambulance Technicians, EMT's, Ambulance Care Assistants, Registered Nurses and First Aid Personnel.

# Services

## Capabilities

Our professional staff work on a daily basis within the NHS and private sectors, either in the ambulance service, motorsports, nursing, community health care services or other Health Professions. They bring with them a wealth of knowledge and experience to the role they undertake with us.

Our staff are used to dealing on a daily basis with a wide variety of incidents and are all of a high calibre. You are assured that through our organisation, injured competitors or members of the public will receive the best treatment and care available.

If you would like us to assist with or attend your event, please contact us with your enquiry or for a quote on:
